Please indicate which you prefer to decorate: **Tree** **Wreath** **No Preference**

For 2018, GCL can only guarantee 10 locations for wreaths. In the event more organizations request reserving a spot for a wreath than is available, GCL will inform those organizations of the sad news.

Due to space limitations and for the sake of conformity, we ask that everyone use a tree that is between 4-7 feet tall, with 6 feet being the ideal. If you must use a tree that is larger than 6 feet or that is wider than average (large circumference), please give details here so that we may plan for the spaces accordingly:

The Library cannot accept responsibility for damage to trees, wreaths or ornaments.
